**“Working with and helping a variety of people is appealing to me.** I listen with an open mind and full attention. No matter their background, I treat each person equally and with respect. Often, I use humour and kindness to establish rapport so they feel comfortable through the testing process. With 14 years' experience working with clients, defense and plaintiff lawyers, I understand we all want the same thing - objective, fair, reasonable and defensible outcomes for everyone.

**On the personal side,** I am an avid hiker and budding amateur mycologist (studying mushrooms/fungi). Spending time outdoors is essential for my mental health and keeps me grounded.
