Future Care Costs and Reviews
Occupational Therapy Assessments
Hand and Upper Limb
Functional Assessments
Qualified Expert Witness

“ I love people. In Life Care Planning, in assessing a hand injury and in Occupational Therapy, I always consider a very holistic approach to a person's life. I'm pretty relaxed and have a knack for making people feel at ease. People seem to appreciate that I sit down and really listen. Most have been through a very traumatic experience. We work together to enable them to get back to doing the things they want to do as realistically as possible. It is important to thoroughly assess the medical, lifestyle and work support they will need for the rest of their life.

On the personal side, I love to travel, especially with my kids, who are older and appreciate the cultural experience. My bucket list also includes the South Pacific, Greece, France, and Italy. At home our two dogs and three cats keep us very busy! “
